

CAFÉ™ Dishwasher Drawer

This is the ultimate multi-tasking dishwasher for a customized clean, offering two dishwasher drawers in the same space as a traditional, single dishwasher. The stacked drawers allow two dishwasher loads with different settings to be run simultaneously, or allow for a single small load to run independently.

Loaded with Premium Features:

- **Six Settings for Any Load Type:** With settings that range from China to Pots and Plus to Rinse, the stacked CAFÉ Dishwasher Drawer can handle fragile and heavy-duty dishes at the same time.
- **Knock-to-Pause:** This sleek feature eliminates the need for a pause button. A simple knock on the drawer allows a wash cycle to be interrupted in order for dishes to be added or removed.
- **Ease of Use:** Unlike traditional dishwashers with hinged door and roll-out shelves, the drawer-style dishwasher facilitates a more simplified unloading experience.
- **Curated Finish Options:** Available in finishes that meet personal design tastes, matte black, matte white and stainless steel, the customized CAFÉ Dishwasher Drawer look can be completed with one of four signature CAFÉ hardware options.

Where to Buy:

The CAFÉ Dishwasher Drawer will be available in Spring 2022 at retailers nationwide for \$1,299 (Stainless Steel) and \$1,449 (Matte Black and Matte White).
